

# SAVE THE DATES

## June 11-12 2012

“The Lung - a pivotal player in systemic inflammatory diseases”, a scientific conference of particular interest for clinicians and researchers in pulmonary medicine, rheumatology and neurology. Take this opportunity to listen to and discuss with invited international prominent speakers!

You will learn more about lung involvement, smoking and co-morbidity in chronic inflammatory systemic diseases, in particular rheumatoid arthritis, myositis, sarcoidosis and multiple sclerosis. In addition, state-of-the-art treatment will be presented.

The meeting, which is jointly arranged by the units of pulmonary medicine, rheumatology and neurology at Karolinska Institutet and Karolinska University Hospital, will take place at

SAS RADISSON  
FRÖSUNDAVIK  
STOCKHOLM

**June 11-12, 2012**

Early registration and abstract deadline will be April 1, 2012

**The number of participants is limited!**

**MORE INFORMATION WILL FOLLOW BY THE MID OF JANUARY!!**
