"VI Scandinavian COPD Research Symposium", Holmenkollen, Oslo, Norway, November 21-22, 2014

Department of Medicine, Karolinska Institutet, Stockholm, Sweden will arrange “VI Scandinavian COPD Research Symposium” on November 21-22, 2014. The meeting will be held at Holmenkollen Parc Hotel Rica, Oslo, Norway.

The purpose is to let young scientists from Denmark, Finland, Norway and Sweden present their research in the field of COPD. Sessions covering “Inflammation and Structural Changes in COPD” and “COPD not Caused by Cigarette-Smoke" will be included. As state-of-the-art lecturer we are proud to include Dirkje Postma, the Netherlands, Paul Henneberger, USA and Andrew Bush, UK. There will also be break-out sessions including discussions on the GOLD document with Jørgen Vestbo, Denmark. Around 100 researchers and physicians from our countries will personally be invited to join the meeting. Our goal is to highlight Nordic COPD research and to let young scientists come together and discuss questions of mutual interest.

The symposium is generously sponsored by Boehringer Ingelheim. An invitation to participate in the meeting will be distributed locally from each country.

We all hope to see you in Oslo in November!

Sincerely yours,

Magnus Sköld
Professor
Dept Medicine Solna
Karolinska Institutet
Stockholm, Sweden

Johny Kongerud
Professor
Dept Respir Medicine
Oslo University Hospital
Oslo, Norway

Thomas Ringbaek
Assistant Professor
Dept Cardiology and Resp Med, Hvidovre Hospital, Denmark

Terttu Harju
Associate professor
